Valid QID – Available for Immediate Joining in Qatar.

SUMMARY

Versatile Computer Science graduate with hands-on experience building modern web apps (Next.js/React/Flask), administering IT networks/systems, and creating BI dashboards (Power BI/SQL/Python). Skilled in bridging software development, hardware/LAN infrastructure, and business data analytics.

SKILLS

- **Development:** Next.js, React, TypeScript, JavaScript, Python (Flask), Node.js, HTML5, CSS3, Tailwind CSS, REST APIs, Dexie.js (IndexedDB), Serwist PWA.
 - **IT Support & Networking:** Windows/Linux, Active Directory, LAN/WAN, TCP/IP, DNS/DHCP, VPN, Hardware Repair, IT Ticketing & SLA Management.
 - **Data Analytics:** Power BI, Tableau, SQL, Advanced Excel (Pivot Tables/Formulas), Python (Data Cleaning, scikit-learn), D3.js.
 - **Tools:** Git, GitHub, VS Code, Figma, Clerk Auth, Vercel.
-

PROFESSIONAL EXPERIENCE

Front-End Developer, IT Specialist & Data Analyst

July 2024 – July 2026

Bahrain/Remote

- Built responsive, offline-first web apps and client landing pages using Next.js, React, Tailwind CSS, and Flask.
 - Provided remote IT support: resolved hardware/software/network issues, managed Active Directory, and enforced SLA ticket resolution.
 - Created dynamic Power BI/Tableau dashboards and automated data extraction/cleaning using Python and SQL.
-

PROJECT

- **Mizan (Runway) (2026):** Local-first PWA expense tracker built with Next.js, Dexie.js (IndexedDB), TypeScript, and Clerk authentication featuring Safe-to-Spend logic.
 - **SS League (2025):** Real-time eFootball auction platform built with Next.js and Tailwind CSS featuring live bidding and team management.
 - **Hanao Data Analysis (2025):** Retail operations analytics project processing 500+ records in Excel using advanced formulas and dynamic pivot tables.
 - **IT Help Desk & Network Monitor (2025):** IT management dashboards for SLA ticket tracking, live LAN asset status, and network monitoring.
 - **Power BI Analytics Dashboards (2025):** Multi-page BI dashboards visualizing AI job market trends and retail sales performance with complex data modeling.
 - **BrainQuest (2025):** Futuristic quiz app built with JavaScript, Tailwind CSS, and Framer Motion featuring adaptive difficulty and micro-interactions.
 - **AI Job Trends & Sales Dashboards (2025):** Multi-page Power BI reports delivering actionable business intelligence on AI industry hiring trends and retail revenue metrics.
 - **Oasis Horizon & Atelier Noir (2025):** Luxury real estate and fashion boutique web platforms built with React.js and Tailwind CSS featuring interactive property and collection showcases.
-

EDUCATION

B.E. Computer Science & Engineering

Nov 2020 - Jun 2024

P.A. College of Engineering

- CGPA: 7.4/10
